**CONNECTED SOLAR PHOTOVOLTAIC PLANT IN LUAPULA**  
**PROVINCE OF ZAMBIA**

**CGM – 01/2023**

CGM was incorporated as an industrial investor in the Zambian private sector for infrastructure development. CGM intends to deliver renewable solar projects as an Independent Power Producer (IPP).

CGM's scaled power project is targeting a total of 350MW DC solar capacity to be developed and constructed within the Northern Circuit Region of Zambia. CGM is pursuing the development in a phased approach to be undertaken over a five (5) year period. The development of renewable energy projects falls within the top five Priority Sectors of the Government of the Republic of Zambia.

CGM is seeking an Engineering, Procurement and Construction (EPC) company or consortium to design and construct a grid-connected solar photovoltaic electricity generation plant, in the Luapula province of Zambia, with a capacity of approximately 25 MW Solar Capacity.

The first stage of the process is a Request for Prequalification (RFQ) round, to prequalify those prospective bidders with the requisite experience, expertise and financial resources to deliver a substantial solar PV IPP project. The second stage will involve a Request for Proposals (RFP) from prequalified bidders. All interested parties may access the RFQ document by visiting:

<https://www.cgmpowergroup.com/rfq-cgm-powergroup-limited-epc-advert/> or

<https://www.linkedin.com/company/cgm-power-group-limited/>

CGM invites prospective bidders capable of meeting the qualification criteria set out in the RFQ document to submit prequalification applications in accordance with the requirements of the RFQ document. Email: [energy@cgmpowergroup.com](mailto:energy@cgmpowergroup.com) and Email: [projects2@cgmpowergroup.com](mailto:projects2@cgmpowergroup.com)

Only prequalified bidders will be eligible to participate in the second (and final) stage of the selection process by participating in a subsequent RFP round to be launched by CGM in due course.

The deadline for the submission of prequalification applications is 24:00 hours Central African Time (CAT) on Friday 31<sup>st</sup> March 2023.

CGM expects this to be the first of several development rounds to be launched in quick succession. However, the number, size, location and structure of all projects will ultimately depend on the results of further analysis.

**Date Issued: 7<sup>th</sup> February 2023**
